

Are you a Director, Manager or Business Owner? WE WILL HELP YOU TACKLE COVID-19 HEAD-ON IN YOUR BUSINESS

The legal obligations faced by businesses have escalated and the penalties for non-compliance are extremely harsh, they go as far as business closure and prosecution.

What we see in abundance is everyone scrambling for solutions, answers and help. Organizations are looking for digital solutions to quickly and simply deal with the many challenges they suddenly have to face.

OUR BUSINESS is about mission-critical best practice **Robust Governance, Risk and Compliance** - Managing the Risks of Extreme Events. We have been around since 1999 and apply applications into many different industries, across many locations, and countries.

OUR SOLUTIONS are proven, they are mobile, easy to set up, and easy to roll out.

This has become an immediate priority, Covid-19 has made it so, swift action implementing good systems and processes is critical.

Best practice Covid-19 resilience framework for business

Management of Covid-19 compliance within the confines of a best practice adapted frameworks, we do this in the following manner :

- Personal information recording and Covid-19 screening
- Location rules and movement
- Secure visitor check-in and immunity 'passports'
- Push notifications and alarms
- Monitoring
- Contact tracing
- Movement permits based on priority zones
- Managing PPE usage
- Strict cleaning and hygiene management
- And being able to adapt quickly

Designed to support businesses to successfully gear up, open up post lockdown, and for managing thereafter.

Our solutions are easily configured to suit any eco-system

Our Disaster Management App is downloadable from App Store or Google Play. Provision is made for a "War Room" scenario where the system can run on big-screen monitors providing live information on dashboards. Designed for all, from essential cleaning workers all the way up to management.

Designed for the war against Covid-19 and business resilience.
