

Welcome to CAMPROSA

CAMPROSA has been in existence for 24 years as a professional body, representing 24 of the 26 major institutions of higher learning in Southern Africa. We currently have a membership of 60 members comprising 24 South African Universities and 4 from neighbouring countries.

We have 32 associate members from various security related industries and provide them the opportunity to network with delegates as well as exhibit their products or services. We have hosted numerous international conferences at which international members representing IACLEA (International Association of Campus Law Enforcement Administrators) and AUCSO (Association of University Chief Security Officers) have regularly attended.

- ▶ CAMPROSA EXCO management members have also been invited and attended some of these international bodies conferences as delegates in so far afield as the UK, the USA and Russia
- ▶ CAMPROSA also holds Associate membership with IACLEA

One of our main objectives is to share experiences and provide support and guidance to all our institutional members as well as mentor and assist colleges and schools as far as it is possible.

CAMPROSA as a national society has regional representatives within all of our provinces who are charged with linking with and extending our goal of sharing and helping other institutions to grow and develop. Given the experience and history within the tertiary environment post #FEESMUSTFALL and #FREEEDUCATION we are all faced with the “new normal” and can provide support and guidance where necessary.

CAMPROSA is committed to contributing positively to dealing with these challenges. As an institutional professional representative body, we are going to engage with other institutions - existing as well as newly established ones - reaching out to TVET colleges to offer our services in respect of the collective knowledge and experience gained as resource to all. We wish to provide access to and assist institutions in respect of:

- Safety and security solutions;
- Best practice and bench marking;
- Design of safety and security planning;
- Assistance in technological solution, consideration and selection of accredited Service Providers;
- Assistance in risk assessments;
- Sharing of information and support;
- Grow CAMPROSA membership to ensure a rich data base of both Members and Associate Members in respect of their values and future development and resource generation being made available.

Should you or your institution wish to gain from this experience you are welcome to engage with us directly, check out our website www.camprosa.co.za and feel free to contact our Executive Secretary at Huebsch.derek@gmail.com for more information and contact details of representatives within your province.

Des Ayob

CAMPROSA National President
